Sports Recovery & Immunity

For many guests, a truly holistic wellbeing programme includes our state-of-the-art technology-led treatments. These include Cryotherapy, Oxygen Chamber Therapy, Photo Bio Modulation and IV Infusion. Our experts work with doctors at NADclinic London for IV infusions to offer highly efficient treatments that support your immune system and anti-ageing.

Whole-Body Cryotherapy -110°C

€60

Time in cryo chamber: 3 minutes

Session time (including pre session): 20 minutes

At -110°C, the body and mind have a chance to reset. At this extreme temperature, the blood retreats to the organs to protect them, and as you come out of the chamber it floods through the body, boosting the entire circulation system, reducing adrenal stress and releasing endorphins. Cryotherapy is a safe way to support detoxification, reduce muscular pain, treat chronic inflammatory diseases and aid recovery and sleep – as well as producing an overall improved sense of wellbeing and glow to the skin.

Oxygen Chamber Therapy

30 minutes

€60

Oxygen is the source of life, supporting your immune system and boosting red blood cells which carry rejuvenating energy to every part of the body. This therapy is medically proven to calm the mind, stimulate neural pathways and speed up post-workout recovery. It requires no more than breathing inside a chamber in which raised oxygen levels, and a higher-pressure atmosphere, deliver up to 20 times more oxygen into the bloodstream.

Photo Bio Modulation

30 minutes

€60

This FDA-approved light therapy treatment delivers energy into the cells to deal effectively with pain, inflammation and skin repair. Red laser light stimulates ATP energy production that powers cellular regeneration. It is particularly effective following medical aesthetic treatments or even used after a face, hair or body mask for overall skin health.

Tech Combo

Cryotherapy, Oxygen Chamber Therapy and Photo Bio Modulation have been chosen for their synergies with each other. They work extremely well in combination with each other, especially before and after workouts.

Tech combo	60 minutes	€90
Series of 10 sessions	Valid for 12 months	€400
Tech & train 1:1	90 minutes	€120

IV Infusions

Vitamins and minerals provide an immediate boost to the system as they go straight into the bloodstream to be taken up at cellular level without upsetting the digestive tract.

We are working with a team of doctors at NADclinic London to offer highly efficient treatments that support your immune system and are anti-ageing. Choose from our custom collection of infusions to reflect your needs and time; the exact length of the treatment depends on the flow rate of the infusion.

Sports Recovery	45 minutes	€300
Essential Immunity	45 minutes	€300
Ultimate Immunity	45 minutes	€400
