At Gran Meliá Palacio de Isora we are always looking to continuously adapt and redesign our spaces according to the new trends and demands of our guests.

We have created new gastronomic concepts to further enhance our extensive and renowned culinary experience, as well as updating the resort's furniture with the aim of giving it a timeless and fresh style. Our new designer furniture, under the leading brand Kettal, brings elegance and comfort to every corner of the resort.

In keeping with our characteristic flexibility to meet the needs of our guests, another novelty is the Flexible Half Board. Our guests will be able to choose during their stay and according to their preferences, if they wish to include lunch or dinner in their half board package on request. In addition, they will have a different experience with each service as they can book in all the open restaurants at the resort.
